Microgaming veröffentlicht Videospielautomat Wealth Spa

Microgaming veröffentlicht neuen Videospielautomaten

Microgaming, der Anbieter für Online-Gamingsoftware hat einen neuen Videospielautomaten mit 5 Walzen und 20 Gewinnlinien mit dem Namen „Wealth Spa“ veröffentlicht. Der Automat ist ganz im Stile eines luxuriösen Aufenthaltes in einem Spa-Wellness-Ressort aufgebaut und bietet eine Reihe verschiedener Gewinnmöglichkeiten.

Goldsymbole bieten Zugang zu exklusiven Bonusrunden

Microgaming ist der weltweit größte Entwickler für online Spielsoftware. Bei Wealth Spa kann der Nutzer eine Vielzahl von Wild-Symbolen (Joker) und Scatter-Symbolen (Streu-Symbole) nutzen, um so viele Goldsymbole wie möglich zu sammeln. Damit erhält der Spieler Zugang zu einem der fünf Bonuslevel.

Innovatives Spielkonzept trifft tolle grafische Umsetzung

Die Goldsymbole werden dem Spieler automatisch gutgeschrieben, wenn diese in der Mitte der fünften Walze erscheint. Die Goldsymbole können direkt eingesetzt werden, um sofort eines der Bonus-Level zu spielen, während fünf gleiche Symbole automatisch den Massage-Bonus bedeuten. Bei diesem besonderen Spiel kann der Spieler einen von 25 Hotspots wählen. Dabei erhält er 25 Gratisispiele und die Chance den großen Jackpot Preis zu knacken.

Microgaming ist für innovative Videospielautomaten bekannt

„Bei Microgaming suchen wir ständig neue, qualitativ hochwertige Spiele für unseren Kunden zu entwickeln und zu veröffentlichen. Im vergangenen Jahr waren es beispielsweise die Einführung herausragender Spiele wie „MySlot“ oder „The Great Galaxy Grab“, sagte Roger Raatgever, der Geschäftsführer von Microgaming.

Wealth Spa ist neues Flaggschiff des Unternehmens

„Unser neuestes Flaggschiff im Bereich Spiele ist Wealth Spa, das ein innovatives Konzept von Multi-Level-Bonusrunden mit einer unvergleichlichen Grafik und einen wirklich aufregenden Gameplay kombiniert.“

Geringe Mindesteinsätze und hohe Gewinnmöglichkeiten zeichnen neues Videospiel aus

Die Einsätze für Wealth Spa liegen zwischen einem und 25 Cent pro Spiel. Laut Microgaming kann ein Spieler, der den minimalen Einsatz wettet, einen Gesamtgewinn von bis zum 12.500fachen ihres Einsatzes mit nach Hause nehmen. Während des Spiels können durch Prämien weitere Gewinne zwischen dem 2.800 bis 25.000-fachen des ursprünglichen Einsatzes gewonnen werden.

Poker and Casino Trivia

-The game of poker is derived from the French poque, a 20-card game descended from the German pochen ("to brag"). However, in modern-day France, the game is known simply as "poker" or "poker en ligne" ("online poker").

-Painter C.M. "Cash" Coolidge (1844-1934) is best known for his "Dogs Playing Poker" series. But he also invented the well-known boardwalk standees with head-shaped holes cut out, ensuring his legacy to fans of dogs, poker, kitsch art and tourist-traps worldwide.

-The legendary "Dead Man's Hand" (held by Wild Bill Hickok at the time of his 1876 murder) consisted of two aces (clubs and spades) and two eights (again, clubs and spades). The suit of the fifth card, still in dispute, was either the jack or the queen of diamonds.

-Writer John D. MacDonald's fictional Florida sleuth Travis McGee (featured in 21 novels from 1964-1984) lives on a houseboat called (what else?) the "Busted Flush."

-In almost every casino in the United States, chips worth \$2.50 are available. Strangely, they are typically only used in one game, blackjack.

-According to Kenny Rogers' immortal ballad "The Gambler," "the best that you can hope for is to die in your sleep." Eek! Let's hope that the recent advent of online betting can offer a less bleak worldview.

-The annual World Series of Poker was hosted by Binion's Horseshoe from 1970 to 2005, when the longtime family-owned business was bought by the MTR Gaming Group. The Horseshoe, purchased in 1951 by Benny Binion, who immediately installed indoor carpeting- a radical innovation at the time. The Horseshoe quickly became known for other attractions besides being the first Las Vegas casino to feature indoor carpeting- like a display of \$1 million in \$10,000 bills.

-There wasn't always a handy online casino. The first automated slot machines were invented in the 1880s. Extremely popular in San Francisco, the reels featured cards instead of the fruit that we now recognize. The first electronic gambling machines (featuring blackjack) premiered in 1964 in Nevada.

Titan Blog review

The operators of online bingo sites recognized long ago the importance of community to their patrons. That's why bingo blogs and forums are so prolific. Casino blogs, on the other hand, have been conspicuously absent; not to mention, sports betting blogs and online poker blogs. Only recently has the web gambling

industry wizened to their importance.

Among the first all-inclusive betting blogs is the recently launched titancasinoblog.com, which provides up-to-the-minute sports betting, casino and **poker news** on a single site. You can, of course, filter according to your preferences. But what is unique about the Titan blog is that it brings all members of the Titan megabrand family together (casino poker and soon, sports and bingo), and updates them on both industry news and current Titan promotional offers.

The gambling fans that long wondered when Titan, best known for its leading online poker room, TitanPoker.com, would throw its hat into the blogging arena are taking note. According to **Titan Blog** developers, traffic has increased steadily since its launch little more than two months ago. The likely reasons include its frequently posted insights and entertaining commentary on everything from today's online gaming events to the latest gambling related press releases; as well as its often advance announcements of upcoming Titan bonus events, promotional offers and poker tournaments.
